

Willie

CGCA, AKC Therapy Dog

Breed: Pit Bull Mix

Born: 2018

Handler: Paul Fike

Due to Willie's severe overbite people were afraid to adopt him, so he spent most of his first six months in an animal shelter. He was rescued and adopted, but, unfortunately, on the street before his first birthday. Because he was microchipped, he was reconnected with the rescue organization, and shortly adopted by his handler. He is now living his best life. Willie loves to come to CHRISTUS Good Shepherd and provide emotional support for the Associates.
